<b>TOTAL</b>	100.00%

**KEEP OUT OF REACH OF CHILDREN**

**CAUTION**

## **READ ENTIRE LABEL BEFORE EACH USE**

## **USE ONLY ON DOGS, CATS, PUPPIES, KITTENS**

### **HOW ADAMSTM PLUS FLEA & TICK MIST WITH PRECOR® WORKS:**

ADAMSTM Plus Flea & Tick Mist with Precor® controls fleas, flea larvae, ticks, lice, mosquitoes, gnats, and flies. It combines the adult flea killing power of pyrethrins with the long-lasting egg-killing power of Precor® Insect Growth Regulator. This highly effective combination of ingredients provides quick relief from biting fleas and continuous killing of flea eggs laid on the animal, breaking the flea life cycle. The elimination of both adult fleas and flea eggs is important because adult fleas live on your pet, causing discomfort and skin irritation, while the vast number of eggs that they lay fall off and develop in your house. If fleas are already developing in your house, then ADAMSTM Plus Inverted Carpet Spray should also be used. Effective flea control requires treatment of your pets, house, and yard.

**DIRECTIONS FOR USE** - It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

### **SHAKE WELL BEFORE USING.**

### **FOR DOGS AND CATS**

**FOR FLEAS:** A light, even coverage of the hair coat will provide effective flea control. Do not allow spray from application or damp animal to come into contact with painted or finished surfaces, including wood floors/furniture, leather/vinyl materials, or other surfaces of concern. For best results, ruffle the coat while spraying against the natural lay of the hair. Cover animal's eyes with hand. With a firm, fast stroke, spray head, ears, and chest. With cloth, rub into face around mouth, nose, and eyes. Then spray the neck, middle and hind quarters, finishing with legs and tail last. Avoid spraying rectum and genitals.

Apply at the rate of 1 or 2 squeezes of the trigger sprayer per pound of body weight. For larger dogs, spray until damp, not saturated. Do not allow animals, cats in particular, to become chilled. Repeat every 2 months for continuous home flea infestation prevention. If your pet becomes reinfested with adult fleas from outside sources, ADAMSTM Plus Flea & Tick Mist with Precor® may be reapplied weekly.

**FOR TICKS:** Make sure spray thoroughly wets individual ticks. Kills Lyme disease-carrying ticks, including *Ixodes scapularis*.

### **FOR PUPPIES AND KITTENS**

**FOR FLEAS:** Leaving the eyes, nose, and mouth exposed, treat puppies and kittens weighing less than 3 pounds by wrapping the animal in a towel that has been lightly sprayed with ADAMSTM Plus Flea & Tick Mist with Precor®, for 5 to 10 minutes. Or lightly spray a brush or cotton ball and work thoroughly into the hair coat. Fleas may then be removed from the coat by picking or combing. Puppies and kittens over 3 pounds may be treated the same as dogs and cats as described above. Repeat every 2 months for continuous home flea infestation prevention. If your pet becomes reinfested with adult fleas from outside sources, ADAMSTM Plus Flea & Tick Mist with Precor® may be reapplied weekly. Do not allow animal to become chilled. **Do not use on puppies and kittens under 12 weeks of age.**

### **STORAGE and DISPOSAL:**

Do not contaminate water, food or feed by storage or disposal. **Storage:** Do not store near heat or open flame. Store away from children and animals. **Container Handling:** Nonrefillable container. Do not reuse or refill this container. **If empty:** Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

## **PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS - CAUTION:** Harmful if swallowed or absorbed through skin. Avoid contact with skin, eyes, or clothing. May cause dermal sensitization (skin allergy).

**HAZARDS TO ANIMALS - CAUTION:** Consult a veterinarian before using this product on debilitated, aged, pregnant, nursing, or animals on medication. Sensitivities may occur after using ANY pesticide product for pets. If signs of sensitivity occur, bathe your pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately. Some cats may be sensitive to products containing pyrethrins. Excessive salivation and ear and paw flicking may occur; however, these effects are temporary and not harmful. May cause dermal sensitization (skin allergy).

## **FIRST AID**

Call a poison control center or doctor immediately for treatment advice.

### **If in eyes:**

Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.

### **If on skin or clothing:**

Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.

### **If swallowed:**

Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

Have the product container or label with you when calling a poison control center, doctor, or veterinarian or going for treatment. You may also contact 1-800-234-2269 for emergency medical treatment information.

**PHYSICAL HAZARDS:** Combustible. Do not use or store near heat or open flame.

Seller makes no warranty, expressed or implied, concerning the use and handling of this product other than indicated on the label. Buyer assumes all risks of use and handling of this material when such use and handling are contrary to label instructions.

Satisfaction guaranteed or your money back.
