BIOTENE® VETERINARIAN DRINKING WATER ADDITIVE

PKB

Enzymatic Brushless Oral Solution

Helps remove Plaque and Inhibit Odor Causing Bacteria

For Veterinary Use Only

Biotene Veterinarian Drinking Water Additive contains two natural enzyme systems that help remove plaque and inhibit odor causing bacteria. **Biotene Veterinarian Drinking Water Additive** is flavorless and provides a safe, healthy way to conveniently clean your pet's teeth without brushing. Does not contain toxic chlorine compounds, alcohol, chlorhexidine or xylitol and is safe to ingest daily.

Directions: Add 4 pumps per approx. 1 qt. (4cups) of drinking water for first 2 weeks of use. Thereafter, reduce to maintenance dosage of 2 pumps per approx. 1 qt. To assure maximum effectiveness, **Biotene Veterinarian Drinking Water Additive** should be added to fresh drinking water daily. Best used with every water change.

Warning: Keep out of reach of children. Store at room temperature. Avoid exposure to high heat. Can be refrigerated.

Ingredients: Glycerine, Sorbitol, Purified Water, Propylene Glycol, Sodium Benzoate, Potassium Sorbate, Rosemary Extract, Sodium Chloride, Zinc Chloride, Lysozyme, Lactoferrin, Lactoperoxidase, Glucose Oxidase, Potassium Thiocyanate, Mutanase, Dextranase.

Manufactured by Laclede, Inc. for Pet King Brands, Inc.
