

## **Busy Buddy Bouncy Bone**

### **Chew Toys for Dogs**

Stimulate your pet with the interactive *Bouncy Bone* toys. The design of the durable nylon bone & rubber ball provide dogs with an extended chewing experience - the Gnawhide treats last longer than giving treats alone & dogs are stimulated to chew the toy well after the irresistible gnawhide treats are gone. Toy unscrews to load treats and clean. Bouncy Bone comes packed with three sets of treats. Additional Gnawhide treat rings sold separately.

- Refillable, durable nylon bone and rubber bone
- Irresistible treats
- Play continues, even when treats are gone

Recommended for strong chewers. Available in 4 sizes.
