***Not recognized as an essential nutrient by the AAFCO Dog Food Nutrient Profiles.**

This product contains sources of Pepsin, Bromelain and Protease (hydrolyzes proteins) and Lipase (hydrolyzes triglycerides).

¹One FCC Unit of pepsin activity digests 3000 times its own weight of coagulated egg albumen under standard conditions.

²One HUT (Hemoglobin Unit on the Tyrosine basis) unit of protease activity will liberate in 1 minute at 40 C and pH 4.7 a hydrolysate whose absorbance at 275 nm is the same as that of a solution containing 1.10 ug/ML of tyrosine in 0.006 N hydrochloric acid.

³One GD unit of protease activity will liberate approximately 8.4 mg amino acids (from gelatin)/20 min/mg of enzyme at 45 C and pH 4.5.

⁴One FIP unit of lipase activity will liberate the equivalent of 1 umol fatty acid from olive oil per min of enzyme at 37 C and pH 9.0.

CANINE PLUS is a nutritional supplement that incorporates a delicate balance of vitamins, minerals, and enzymes for dogs of all ages, sizes, and breeds.

Feeding Directions for Adult Dogs and Puppies:

Under 20 lbs:	1 tablet daily
20 - 70 lbs:	2 tablets daily
