CLENZ-A-DENT™ S RF2 DENTAL STICK

Sogeval

**TASTY DENTAL STICK FOR ORAL HYGIENE**

*- Plaque and Biofilm control*

*- Tartar control*

*- Prevents bad breath*

*- Advanced design*

**RF2 - dental biofilm control**

**0 - 10 KILOS**

**Composition:**

Cereals - Polyols - RF2 Rheum palmatum.

**Analytical composition:**

Raw protein 9.95% - Raw fat 0.72% - Raw fibers 1.55% - Total ash 7.76% - Moisture Content/Humidity 9.03%.

**Properties**

**Plaque control:**

Clenz-a-dent™ RF2 sticks contain RF2, a unique patented active ingredient. RF2 breaks down the biofilm made by bacteria present in the mouth. Biofilm is the first step to plaque and calculus build up. Therefore, Clenz-a-dent™ RF2 sticks disrupt the formation of biofilm and thus prevent plaque build up and bad breath.

**Long-lasting chewing:**

The unique texture and advanced shape of Clenz-a-dent™ RF2 Sticks allow the dog to chew longer - on average 10 minutes. The mechanical effect of chewing added to the abrasive texture of Clenz-a-dent™ RF2 Sticks help fight plaque and calculus.

**Uses:**

Dental hygiene in dogs. The regular use of Clenz-a-dent™ RF2 Sticks helps:

- control biofilm, plaque and calculus,
- prevent bad breath.

**Instructions for use:**

Oral use. For dogs under 10 kg (22 lbs) of bodyweight. Give up to one Clenz-a-dent™ RF2 Stick per day, preferably after meal. Make sure the dog has access to fresh water. Clenz-a-dent™ RF2 Sticks can be used in a protocol with other Clenz-a-dent™ RF2 products to optimize oral health. Veterinarian recommendations should be observed.

**Storage:**

Store in a cool and dry place. Carefully reseal the pouch after use.

**PRESENTATION**

1 pouch of 6 sticks.

Net weight: 84 g.

Box of 4 pouches of 6 sticks

Net weight: 336 g.

**For veterinary use only**
