* From manganese ascorbate.

Store in a cool, dry area out of direct sunlight. Keep lid tightly secured to ensure freshness.

This container contains (1) non-toxic desiccant to help preserve freshness and ensure the shelf life of the product.

▼ Source: Surveys conducted in the Fall of 2002, March 2004, and September 2007 of equine veterinarians who recommended oral joint health supplements.

COSEQUIN® the number 1 veterinary recommended brand has been shown safe, bioavailable and effective in published research.

	Initial 2-4 Weeks	Long-Term Administration
Under 600 lbs	1 scoop daily	1/2 scoop daily
Over 600 lbs	2 scoops daily	1 scoop daily

This chart should be used for guidance. The recommended initial administration period is 2-4 weeks. Once response is noted, the number of scoops may be reduced to the long-term administration level. Prior to and during an event or strenuous exercise, administration may be increased back to the initial level for extra support.
