DERMABENSS™ SHAMPOO

Dechra (formerly DermaPet)

Soapless Shampoo with Moisturizers

Benzoyl Peroxide (2.5%)

Sulfur (1%)

Salicylic Acid (1%)

For use on Dogs and Cats

SOLD BY PROFESSIONALS ONLY

If you're ready to get serious about your pet's skin and coat care, here is your answer.

DermaBenSs is a gentle, pH balanced shampoo, containing Benzoyl Peroxide (2.5%), sulfur (1%) and salicylic acid (1%). Natural moisturizing factors, antioxidants, vitamin E and an elegant natural fragrance. Cruelty free, environmentally sensitive and contains no animal protein, dyes, or soaps. All contents are biodegradable.

Indications: Topical treatment of seborrhea complex and conditions where a degreasing, follicle-flushing keratolytic shampoo may be beneficial.

Directions: Shake well before each use. Use DermaLyte Shampoo as a primer. Rub DermaBenSs into skin and/or coat until lightly lathered. Wait 5 to 10 minutes and rinse well. Use daily or as directed by vet.

Hot Spots: Clip hair off area, preferably with a #40 clipper blade and apply, rinse, then use DermAllay Conditioner to relieve associated dryness of skin and coat.

Caution: For external use only on domestic animals. Avoid contact with eyes or mucous membranes. May bleach colored fabric. If irritation develops, discontinue use. Contact hypersensitivity has been seen in humans at a rate of 1-2%, although as yet is unreported in dogs and cats. Keep out of reach of children. Store at room temperature (59-86°F).
