DOUXO® CALM GEL

Sogeval

Soothing sprayable gel

with hinokitiol and phytosphingosine

ALLERGIES

Sprayable concentrated gel - Phytosphingosine salicyloyl - Hinokitiol - Raspberry seed oil - NDGA (Nordihydroguaiaretic acid) - vitamin E - moisturizer - Pemulen® - Glycofilm®

PROPERTIES

Phytosphingosine is a modified pro-ceramide with anti-inflammatory properties and helps restore the skin lipid barrier. Hinokitiol is a natural antiseptic (antibacterial and antifungal) agent. It helps control the skin ecosystem in case of inflammation.

Raspberry seed oil brings the essential fatty acids necessary to the restoration of the skin. It is also rich in tocopherols which are known for their antioxidant properties.

DOUXO® Calm Gel also contains natural antioxidants (NDGA and Vitamin E) and moisturizers.

The association of these active ingredients in *DOUXO® Calm Gel* helps reduce skin inflammation, restore the skin barrier function and control the local flora.

Pemulen® has an immediate soothing and refreshing effect when applied on the skin.

Glycofilm® creates a surface matrix which acts as a second skin. It helps protect the lesion from external aggression and enables the progressive release of the active ingredients.

DOUXO[®] *Calm Gel* is fragrance free and paraben free.

USES

Dogs and cats: topical management of localized inflammatory conditions and pruritus.

DIRECTIONS FOR USE

External use only.

Spray directly on the skin by holding the pump approximately 8 inches from the lesion.

The veterinarian's recommendations should be observed. It is generally recommended to use once a day until recovery.

PRECAUTIONS FOR USE

Do not swallow.

Avoid contact with the eyes.

Hygiene product.

Veterinary use only.

Available Through Licensed Veterinarians Only
