## ENZADENT™ ORAL CARE CHEWS FOR CATS

Vétoquinol USA

### *FOR VETERINARY USE ONLY*

*Enzadent Oral Care Chews* combine enzymes found naturally in your cat's saliva with the natural abrading action of freeze-dried fish to help remove food debris before it becomes a problem.

*Remember*, your cat depends on you and your veterinarian for all its health care. Ask your veterinarian about the many different oral care options available to you.

*Ingredients:* Freeze-dried Fish, Barley Malt Extract, Antioxidants (combining tocopherols, ascorbic acid, natural flavor, citric acid, polysorbate 80, propylene glycol, canola and/or soybean oil, potassium sorbate), Dried Whey Protein Concentrate (source of Lysozyme, Lactoferrin and Lactoperoxidase).
