

CORTA-FLX® Solution:
Now With 50mg Of HA Per Serving!

- Clinically Proven
- Horse Journal Product of the Year
- Recommended By Leading Veterinarians Worldwide
- Available In Quarts, Gallons And 5.25 Gallon Sizes

Equine CORTA-FLX® solution is the first product of its kind featuring the pure, micro-sized, water soluble, isolated nutrients comparable to the active ingredients found in Chondroitin and Glucosamine. Horse-men/women and veterinarians worldwide know that the effectiveness of any oral suspension is determined by its ability to pass through cellular walls.

Equine CORTA-FLX's smaller molecules, in addition to MSM and Hyaluronic Acid, mean maximum assimilation and better utilization. In 1999 the major horse publication, the Horse Journal, named it the Product of the Year. In 2002, Michigan State University researcher Dr. Hilary Clayton proved in a double-blind, placebo controlled study that Cortaflex for horses dramatically reduced asymmetry in gate analysis testing on horses.

CORTA-FLX Solution tastes great and in many cases, stimulates the horse's desire to eat. CORTA-FLX mixes great with feed. Take advantage of our 100% "Risk Free" 5-Day Guarantee, try Cortaflex Solution for your horse today!
