

Fel-O-Lysine Powder For Cats

L-Lysine Supplement for Feline Herpes Virus

An Essential Amino Acid For Cats

Fel-O-Lysine is a water soluble L-Lysine supplement for cats. Used as an aid in treating Feline Herpes Virus and its associated respiratory and ocular symptoms, and as a general L-Lysine supplement.

L-Lysine ensures absorption of calcium which helps in the formation of collagen and cartilage, and in connective tissue repair. It also provides an essential support for a deficient immune system. Fel-O-Lysine also provides antioxidants.

Ingredients:

Maltodextrin, 98.5% USP L-Lysine, DiMethylGlycine (DMG). Flavored powder for increased palability. Each teaspoon contains 300mg of L-Lysine and 20mg of DMG.

Directions: 1 teaspoon twice daily as a nutritional supplement.

CAUTION: Not for human use. Keep out of reach of children. Animal use only. Store in a cool, dry place.

Packaging: 8 oz. (227gm) resealable pouch
