

## **Hypodermic Syringes for Pets**

### *Sterile Disposable Plastic Syringes*

Ideal Syringes are packaged in a sterile, individual hard pack. Syringes are latex free, nonpyrogenic, nontoxic

and autoclavable, and are manufactured with a delivery design that is smooth and accurate.

Positive plunger stop allows for maximum filling and eliminates costly spills.

Tapered plunger shaft permits one-hand operation.

Reinforced tip reduces breakage.

Tri-Seal O-Ring reduces leakage and provides accuracy

### **Instructions For Use:**

1. Remove the syringe from its pack.
2. Secure needle to syringe by twisting needle sheath clockwise
