KETO-TRIS FLUSH +PS

Sogeval

Ketoconazole 0.1%, Tris-EDTA, Phytosphingosine 0.01%

Topical Antiseptic Solution for Cleansing and Flushing of Ears and Skin.

CONTAINS PS

PhytoSphingosine

Restores the Lipid Barrier

Ingredients: Ketoconazole 0.1%, Phytosphingosine-HCl 0.01%, Tromethamine (Tris), Ethylenediaminetetraacetic acid (EDTA) in a pH 8 buffered solution.

Properties: Keto-TRIS Flush +PS is an antiseptic (antibacterial and antifungal) solution for gentle cleansing and flushing of ears and skin. Contains ketoconazole for the management of yeasts and fungi and preservatives for antibacterial activity. Phytosphingosine is a pro-ceramide to restore the skin barrier and helps in the long-term management of skin conditions. Phytosphingosine HCl also has antiseptic properties. The alkaline pH of Keto-TRIS Flush +PS helps potentiate local antibiotics such as quinolones and aminoglycosides. Can be used on dogs, cats and horses.

Directions for Use: Shake well before use. Apply liberally to the affected area(s). Use cotton or absorbent material to clean excess solution and wipe away debris. Do not allow the animal to lick the treated area until dry to prevent ingestion. Apply twice daily or as directed by veterinarian. Wash hands after use.

Precautions: For topical use in animals only. Avoid contact with eyes. If eye contact occurs, rinse thoroughly with water and consult a veterinarian.

Available Through Licensed Veterinarians Only

Storage: Store at controlled room temperature; protect from freezing.
