KETOSEB WIPES +PS

Sogeval

Shared solutions

Chlorhexidine 20 mg, Ketoconazole 17 mg, Phytosphingosine 0.4 mg

Antiseptic and Cleansing Wipes.

CONTAINS PS

PhytoSphingosine

Restores the Lipid Barrier

FOR VETERINARY USE ONLY

Active Ingredients (per wipe): Chlorhexidine 20 mg, Phytosphingosine-salicyloyl 0.4 mg, Ketoconazole 17 mg in an alcohol-based solution.

Properties: Ketoseb Wipes + PS contains an antiseptic (antibacterial and antifungal) solution for the topical management of skin conditions that are responsive to chlorhexidine and ketoconazole. Phytosphingosine is a pro-ceramide to restore the skin barrier and helps in the long-term management of skin conditions. Phytosphingosine-salicyloyl also has anti-inflammatory properties. Ketoseb Wipes + PS can be used for the antiseptic cleansing of face folds, in-between finger folds, axillae and groin areas.

Directions for Use: 1 to 3 applications per day or as directed by veterinarian. Do not allow the animal to lick the treated areas until dry to prevent ingestion. Wipes should be used for one application only; do not reuse.

Precautions: Keep out of the reach of children. Avoid contact with eyes or mucous membranes. If eye contact occurs, rinse thoroughly with water and consult a veterinarian. If undue skin irritation develops or increases, discontinue use and consult a veterinarian.

Storage: Store at room temperature. Protect from freezing.
