

Wubba Dog Toys

The Wubba shape is so unique that it's patented. The tails work as a grip, sling, and teaser. Dogs love to make the tails flap by shaking their Wubbas back and forth. In addition to its shape, the colors and the way the Wubba flies through the air attract your dog's attention. Wubbas are gentle on the mouth, durable and squeak when chewed on.

With a Wubba Wubba dog toy, you don't have to pick up a slimy tennis ball. It's easy to play tug. Wubba dog toys are easy to throw. When your dog catches a Wubba Wubba and shakes it back and forth, the tails flap in his or her face. To a dog, this is good. Wubba dog toys are Dog's Best Friend.

Snugga Wubba

Soft fleece for gentle indoor play.

Sport Water Wubba

Squeakerless neoprene floats and dries fast for water and snow play.

Sport Night Wubba

Ballistic orange with reflector strips are great for night play.

Sport Wubba Warrior

Camouflage looks cool and is ideal for training retrievers.

Wubba Wubba

Long tails make it easy to pick up and throw. Dogs go for the squeaker and get excited by flapping tails.
