

NurtureCALM 24/7 Pheromone Collar For Dogs

Sustained Release Pheromones For Dogs & Puppies

Meridian NurtureCALM 24/7 Pheromone Collars for dogs are proven to modify behavior. Helps dogs in fearful or stressful situations [separation anxiety, visitors, other household dogs, loud noises, new baby, vet visits, traveling]. The pheromone provides a convenient alternative to diffusers which are limited for use in the confines of a designated room. The calming collar goes where your dog goes, whether it is at home or on the go. Can be given to all ages and to all breeds. Effective and safe, and can be used without long-term effects.

Pheromones Help Modify Problem Behaviors as:

Separation Anxiety

Excessive Barking

Destructive Behavior

Inappropriate Urine Marking

Fear Aggression, Fear Biting

Nervous Restlessness

NurtureCALM 24/7 Canine Calming Collar lasts up to 30 days

Common Causes of Canine Behavioral Problems

Fear of separation [Separation Anxiety]

Fireworks & loud noises

Travel

Thunderstorms

Boarding, grooming, visits to veterinarian

Visitors and strangers

NurtureCALM 24/7 Pheromone Collar mimics the pheromone that the mother dog produces to calm and reassure her kittens. Dogs recognize these pheromones throughout life.

Pheromone behavior collars mimic the natural way to help dogs cope with new and fearful situations.

Directions: Place collar around pet's neck, adjust to fit dog's neck comfortably. The collar must be worn loosely to allow for growth of the pet and to permit the collar to move about the neck. Generally a properly fitted collar is one that when fastened, will snugly slide over pet's head. Leave 2 or 3 inches for extra adjustment. Cut off the excess portion of the collar. The collar is designed to release powder when applied, which will activate the pheromones. When fresh collar is stretch out it may show an excess of powder. This excess powder is primarily a carrier for the pheromones and is not harmful to the pet. Wash hands after placing collar on pet. Seal collar in plastic bag when not in use to prolong effectiveness.

Composition: Pheromones 2%, inert ingredients 94%

Caution: Remove the collar before shampooing your dog and replace it after the dog's coat is dry. Do not use collar on dogs with extensive skin lesions. NurtureCALM 24/7 Pheromone Collar is not a pharmaceutical product.

Store at room temperature.

Do not allow children to play with collar.
