

SprayShield Animal Deterrent Spray

SprayShield is an effective, safe, and humane way to deter aggressive animals. When tested in a controlled situation, SprayShield's unique formula proved to be highly effective in stopping an attacking dog. SprayShield is not harmful and therefore will not increase aggression in dogs. Unlike other spray deterrents, SprayShield's unique formula will not injure the user if accidentally "blown back" into the eyes.

To Use:

Shake can for 1-2 seconds. Slide trigger right to activate. Aim spray nozzle at the animal's nose. Depress trigger to fire. Spray stream has a maximum reach of 10 feet. Each can will spray continuously for up to 12 seconds. To lock trigger, lift red tab and slide left until locked.
