

Terumo Sur-Vet Hypodermic Syringes

Sur-Vet Syringe Pet Supplies

Terumo is a worldwide leader in the design, manufacture, and marketing of Hypodermic Syringes and Needles. Terumo pioneered many of today's most important hypodermic features such as ultra clear barrels, Latex-free syringes, and an integrated plunger stop which helps prevent the plunger from being accidentally pulled out. The posi-stop plunger prevents accidental separation, spillage.

Barrel clarity allows quick check for turbidity, air bubbles. Bold scale markings help assure precise measurement of dose.

Terumo's Hypodermic needles use a unique double bevel design and precision manufacturing to provide ultra sharp needles, which translate into greater comfort for the patient. Needles known worldwide for extreme sharpness.

- Clear syringe barrel
- Bold, precise scale markings
- Translucent needle hub for quick observation of flashback
- Packaging is designed for safety and cost efficiency
- Plastic blister package is tamper evident, moisture repellent and puncture resistant for assurance of sterility
- Peel-packs provide waste disposal cost savings versus the bulky plastic tube containers of some other syringes
- Syringes with needles offer maximum patient comfort delivered through ultimate sharpness and smoothness
- Regular Walled Needles are more rigid than thin walled needles and therefore, do not bend as often

Packaging: 100 syringes per box
