

Vista Small Shedding Slicker Brush

The Vista Shedding Slicker Brush features a soft foam cushioned pad 3" x 1.5", unbreakable handle and a curved head. Perfect size for small to medium size dogs. The bent-wire bristles grasp and removes undercoat, and when used regularly can prevent matting.

- Professional Quality
- Removes shedding hair without damaging topcoat
- Provides a beautiful and long lasting well groomed finish
- Gentle and effective

Technique: Lift the coat up and brush from the skin out in layers. This "Line Brushing" technique will provide the most efficient and enjoyable grooming experience and results. You can test the area after brushing by inserting a comb parallel to the skin and combing outward to capture any tangles, mats or clumps of undercoat.
