ZYMOX® RINSE

PKB

Enzymatic

Three Point Enzyme System™

Skin Therapy for Pets

Gentle on the skin yet tough on bacterial and fungal infections

Contains Natural Enzymes: Lactoperoxidase, Lactoferrin and Lysozyme

ZYMOX Rinse provides a powerful protective barrier against minor skin inflammations and surface irritations due to bacterial and fungal microorganisms. *ZYMOX* Rinse utilizes three enzymes needed to provide the most complete topical protection available for your pet. Made of natural ingredients, *ZYMOX* Rinse is safe and gentle enough to be used on all ages and sizes of pets.

Each enzyme has shown to be independently potent and when combined, packs a powerful punch. This natural defense system is found and produced in milk so is safe and gentle on your pet.

Directions: Wet fur thoroughly. Starting at neck, work a thin stream of *ZYMOX* Rinse down to tail. Follow by applying to both sides of pet. Pay special attention to any problem areas. Rinse lightly, then pat dry with towel. *ZYMOX* Rinse may be used as often as needed.

Warning: For external use only. Avoid contact with eyes. If condition worsens or does not improve in 2-4 days, consult your veterinarian.

Ingredients: Water, Cetrimonium Chloride, Cyclomethicone, Vita-Protein Complex, Biotin, Lysozyme, Lactoferrin, Lactoperoxidase, Zinc Gluconate, Potassium Iodide, and Natural Fragrance.
